

# SCOPIA® Desktop

Easily connect remote employees and external partners to your existing video network for voice, video and data communications

### Extend the Reach of Your Existing Video Network

With SCOPIA Desktop, your video network is accessible to any member of your organization. Team members can collaborate regardless of their chosen device: a high end room conferencing system, a laptop in a small branch office or a teleworker's personal computer. For larger audiences, use SCOPIA Desktop's built-in streaming capabilities.

### Collaborate Effectively with Business Partners

Simply send a Web link to business partners inviting them to participate in a high end video conference. SCOPIA Desktop's built-in firewall traversal ensures call connectivity regardless of your partner's firewall.

### Recording and Playback

Let users record, archive and view all aspects of the meeting including audio, video, data and annotations. Recorded content is easily organized and managed providing simple web-based access and retrieval.

### Enjoy High Quality Video, Audio and Data on any Computer

By utilizing RADVISION's state-of-the-art audio and video hardware processing, each participant is assured a high quality audio/visual experience, now with HD to the desktop.

### Common Experience for All Participants

Whether connected from a high end conference room or a remote laptop, all users get the same conference features like Continuous Presence video, H.239 data collaboration including annotation, PIN protected meetings and conference moderation.

### Say Goodbye to Expensive Deployment Costs

SCOPIA Desktop uses a freely distributable, state of the art Web client. There are no client software fees, complex installations, license provisioning or software upgrades.

## SCOPIA Desktop Product Specifications

### Client Connectivity Modes

- Live connection (Audio, Video, Data, Chat) for interactive participants
- Data only connection with moderation capabilities, optional call back
- Streaming mode for non-interactive participants

### Data Collaboration

- H.239 based data collaboration
- Annotation over H.239 data collaboration
- Room system-compatible data collaboration format (H.263+, H.264 HD)
- Data shared from a room system or desktop visible on all other room systems or desktops
- Share the entire screen or specific applications
- Text chat with emoticons for desktop users

### Recording and Playback (Optional)

- Records audio, video, data, and annotations
- Auto posted for easy web access
- PIN protected for access security
- Permit anyone to record or restrict users<sup>1</sup> by administrator

### Layout Selection

- Video or data focused
- Side-by-side video and data
- Full screen video or data
- Automatic based on meeting context

### User Controls

- Mute/un-mute
- Stop/start video
- Turn on/off local self-view
- Choose your video layout (active speaker or continuous presence)
- Have the system call my voice or video number (callback)
- View consolidated conference roster (desktops and rooms)
- DTMF keypad

### Client Computer Requirements

- Operating System: Windows® 2003, Windows® XP, Windows® Vista™, Mac® OS X
- Browsers: Internet Explorer® 6, 7 or 8, Firefox® 2 or 3, Safari™ 3.1<sup>2</sup>

## Sample Deployment

<sup>1</sup> When working in conjunction with iVIEW

<sup>2</sup> Mac OS X/Safari and Firefox support conference watching only. Intel based CPU required for data viewing.

### About RADVISION

RADVISION (NASDAQ: RVSN) is the industry's leading provider of market-proven products and technologies for unified visual communications over IP, 3G and IMS networks. With its complete set of standards-based video networking infrastructure and developer toolkits for voice, video, data and wireless communications, RADVISION is driving the unified communications evolution by combining the power of video, voice, data and wireless - for high definition video conferencing systems, innovative converged mobile services, and highly scalable video-enabled desktop platforms on IP, 3G and emerging next-generation IMS networks.
